

ALI ULTRA MICRO SCISSORS

ALI Ultra Micro Scissors Set

Ultra Neurosurgery

As we pursue minimally invasive and precise surgical techniques more than ever, the traditional microsurgery is about to enter a new era of “ultra neurosurgery”. — Dr. Ali Krisht, MD

Guided by the idea of ultra neurosurgery, the surgical approach utilizes innovative tools and novel concepts to minimize burning and blunt separation. The details of the tissue, which was easily neglected in the past, can now be handled, to better care for and protect the tissues. In this way, ultra neurosurgery brings minimal damage to the patients or harm to the tissue, which significantly improves the performance after the surgery.

Designed in Collaboration With:
Dr. Ali Krisht, MD

Dr. Ali Krisht is a highly regarded neurosurgery professor at the CHI St. Vincent (Little Rock). As the director of the Arkansas Neuro-science Institute and the chief neuro-surgeon, he has published extensively in the field of brain vascular tumors, pituitary tumors, and skull base tumors.

Dr. Krisht has made pioneering contributions to the treatment of skull base sinus, cerebral aneurysms, and gliomas, and his work has been recognized with numerous awards, including the Herbert Olivecrona Award (Nobel Prize of Neurosurgery) in 2019. Castle Connolly and “Contemporary Neurosurgery” have rated him as a top 1% neurosurgical expert.

ALI Ultra Micro Scissors Set

The ALI Ultra Micro Scissors Set, co-developed with the distinguished neurosurgery professor Dr. Ali Krisht, represents the pinnacle of ultra neurosurgery instruments.

The full set comprises 16 ultra micro scissors, and they can form three sets tailored to specific surgical areas: the “Sylvia fissure set”, the “Cavernous sinus set” and the “Posterior fossa set”. The 16 ultra micro scissors in different sizes enables surgeons to deal with all kinds of surgical needs, feeling comfortable in the hands with the proper length.

The ALI Ultra Micro Scissors Set features two types of blades: sharp and blunt. The blunt blade can be used for arterial and peripheral areas, while the sharp blade allows for safe sharp dissection during surgery.

The hollow design and lightweight titanium material makes the surgeons feel as if they are touching the blood vessels with their own fingers. Furthermore, the ultra-fine blade design offers unparalleled precision for neurosurgeries.

“It is a set of micro scissors for every surgeon who pursues ultra precision”.

Ultra-Lightweight And Hollow Design

By virtue of the ultra-lightweight, hollow design, and lightweight titanium materials, this tool provides surgeons who perform prolonged fine microsurgery with exceptional comfort and sensitivity, akin to the feeling of touching blood vessels with their fingertips.

Ultra-Fine Blade

The ultra-fine blade is both thinner and more precise than any previous tool, facilitating unparalleled accuracy in microsurgical procedures under the microscope. The sharp and blunt blades allow safe and precise surgical operations across various regions.

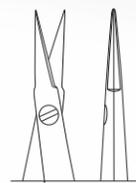

Small-Angle Bayonet-Shaped

The specially designed “small-angle bayonet-shaped” caters to sophisticated surgical procedures, ensuring that the hand does not obstruct the light path and offering surgeons a wider visual range of the blade under the microscope, guaranteeing the accuracy of fine surgical operations.

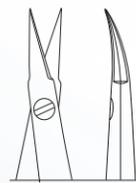

ALI Ultra Micro Scissors Set

120mm ALI Ultra Micro Scissors

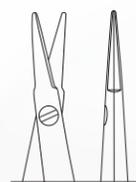

S1

Model: HC-S-001T 1211S
Blade: Straight, Sharp
Total length: 120mm
Blade length: 35mm

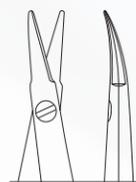

S3

Model: HC-S-001T 1212S
Blade: Curved Upwards, Sharp
Total length: 120mm
Blade length: 35mm

S2

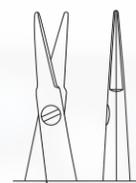

Model: HC-S-001T 1211B
Blade: Straight, Blunt
Total length: 120mm
Blade length: 35mm

S4

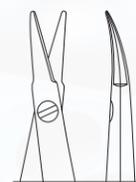

Model: HC-S-001T 1212B
Blade: Curved Upwards, Blunt
Total length: 120mm
Blade length: 35mm

190mm ALI Ultra Micro Scissors

S9

Model: HC-S-001T 1921B
Blade: Straight, Blunt
Total Length: 190mm
Blade length: 55mm

S10

Model: HC-S-001T 1922B
Blade: Curved Upwards, Blunt
Total Length: 190mm
Blade length: 55mm

210mm ALI Ultra Micro Scissors

S11

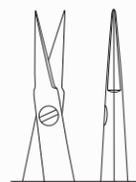

Model: HC-S-001T 2121B
Blade: Straight, Blunt
Total Length: 210mm
Blade length: 75mm

S12

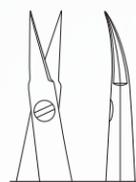

Model: HC-S-001T 2122B
Blade: Curved Upwards, Blunt
Total Length: 210mm
Blade length: 75mm

160mm ALI Ultra Micro Scissors

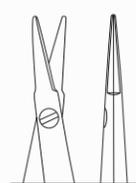

S5

Model: HC-S-001T 1611S
Blade: Straight, Sharp
Total length: 160mm
Blade length: 45mm

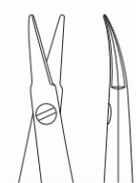

S7

Model: HC-S-001T 1612S
Blade: Curved Upwards, Sharp
Total length: 160mm
Blade length: 45mm

S6

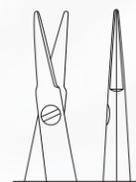

Model: HC-S-001T 1611B
Blade: Straight, Blunt
Total length: 160mm
Blade length: 45mm

S8

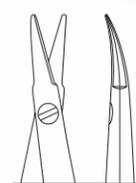

Model: HC-S-001T 1612B
Blade: Curved Upwards, Blunt
Total length: 160mm
Blade length: 45mm

230mm ALI Ultra Micro Scissors

S13

Model: HC-S-001T 2321B
Blade: Straight, Blunt
Total Length: 230mm
Blade length: 95mm

S14

Model: HC-S-001T 2322B
Blade: Curved Upwards, Blunt
Total Length: 230mm
Blade length: 95mm

250mm ALI Ultra Micro Scissors

S15

Model: HC-S-001T 2521B
Blade: Straight, Blunt
Total Length: 250mm
Blade length: 115mm

S16

Model: HC-S-001T 2522B
Blade: Curved Upwards, Blunt
Total Length: 250mm
Blade length: 115mm

Sylvia Fissure Set

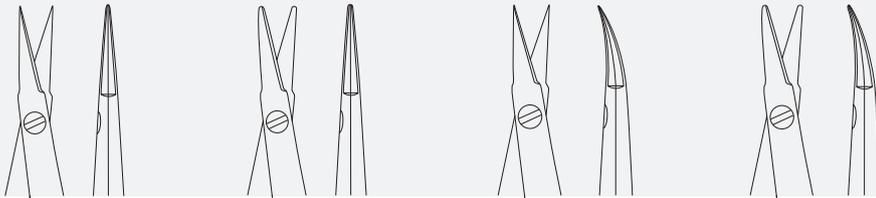

| Qty. | Model | Description |
|------|-----------------|---|
| 1x | HC-S-001T 1211S | #S1 Ali Ultra Micro Scissors; titanium alloy, golf ball handle, straight sharp blade, total length 120mm |
| 1x | HC-S-001T 1211B | #S2 Ali Ultra Micro Scissors; titanium alloy, golf ball handle, straight blunt blade, total length 120mm |
| 1x | HC-S-001T 1212S | #S3 Ali Ultra Micro Scissors; titanium alloy, golf ball handle, curved upwards, sharp, straight, total length 120mm |
| 1x | HC-S-001T 1212B | #S4 Ali Ultra Micro Scissors; titanium alloy, golf ball handle, curved upwards, blunt, straight, total length 120mm |
| 1x | HC-S-001T 1611S | #S5 Ali Ultra Micro Scissors; titanium alloy, hollow handle, straight sharp blade, straight, total length 160mm |
| 1x | HC-S-001T 1611B | #S6 Ali Ultra Micro Scissors; titanium alloy, hollow handle, straight blunt blade, straight, total length 160mm |
| 1x | HC-S-001T 1612S | #S7 Ali Ultra Micro Scissors; titanium alloy, hollow handle, curved upwards, sharp, straight, total length 160mm |
| 1x | HC-S-001T 1612B | #S8 Ali Ultra Micro Scissors; titanium alloy, hollow handle, curved upwards, blunt, straight, total length 160mm |

Cavernous Sinus Set

| Qty. | Model | Description |
|------|-----------------|---|
| 1x | HC-S-001T 1611B | #S6 Ali Ultra Micro Scissors; titanium alloy, hollow handle, straight blunt blade, straight, total length 160mm |
| 1x | HC-S-001T 1612B | #S8 Ali Ultra Micro Scissors; titanium alloy, hollow handle, curved upwards, blunt, straight, total length 160mm |
| 1x | HC-S-001T 1921B | #S9 Ali Ultra Micro Scissors; titanium alloy, hollow handle, straight blunt blade, straight, total length 160mm |
| 1x | HC-S-001T 1922B | #S10 Ali Ultra Micro Scissors; titanium alloy, hollow handle, curved upwards, blunt, bayonet-shaped, total length 190mm |
| 1x | HC-S-001T 2121B | #S11 Ali Ultra Micro Scissors; titanium alloy, hollow handle, straight blunt blade, bayonet-shaped, total length 210mm |
| 1x | HC-S-001T 2122B | #S12 Ali Ultra Micro Scissors; titanium alloy, hollow handle, curved upwards, blunt, bayonet-shaped, total length 210mm |

Posterior Fossa Set

| Qty. | Model | Description |
|------|-----------------|---|
| 1x | HC-S-001T 2321B | #S13 Ali Ultra Micro Scissors; titanium alloy, hollow handle, straight blunt blade, bayonet-shaped, total length 230mm |
| 1x | HC-S-001T 2322B | #S14 Ali Ultra Micro Scissors; titanium alloy, hollow handle, curved upwards, blunt, bayonet-shaped, total length 230mm |
| 1x | HC-S-001T 2521B | #S15 Ali Ultra Micro Scissors; titanium alloy, hollow handle, straight blunt blade, bayonet-shaped, total length 250mm |
| 1x | HC-S-001T 2522B | #S16 Ali Ultra Micro Scissors; titanium alloy, hollow handle, curved upwards, blunt, bayonet-shaped, total length 250mm |
